

Supplies for the foundation piecing with scraps class:

At least 20 square sheets of paper (6 inch or bigger). Origami paper works well, or you can use old magazine pages cut square, or plain white printer paper cut square.

Lots of scraps in a range of sizes, tones, and colors. Some can be as small as a few inches but make sure you have some that are larger - 10 - 12 inches. You won't know exactly what you want to use until you begin the workshop so have lots of materials handy!

Graph paper or sketchbook and pencil is recommended but not necessary.

Usual quilting tools - rotary cutter, mat, clear ruler, sewing machine, iron, etc.
